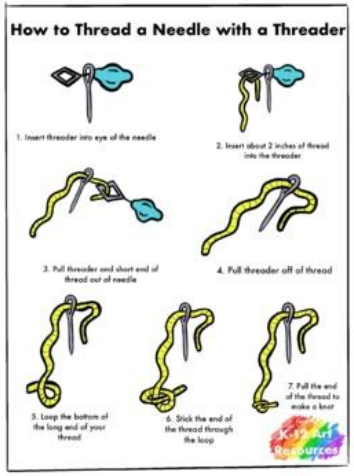
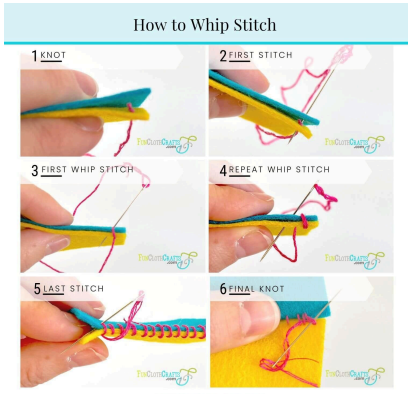
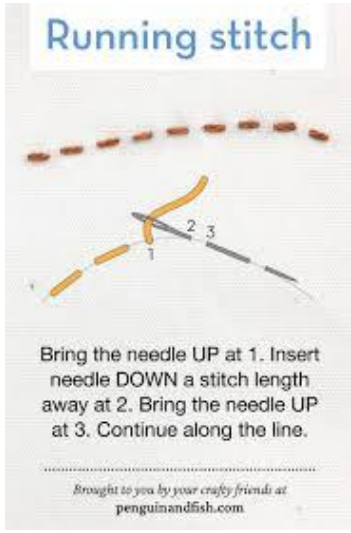
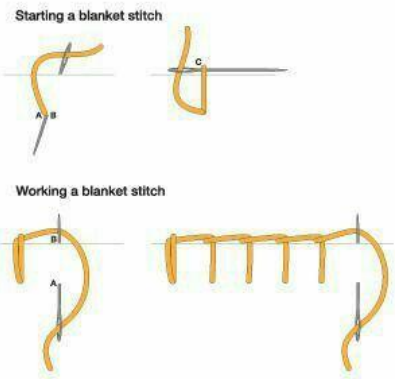
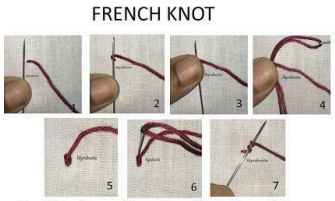
Sewing Cheat Sheet











1. Bring the needle up from the bottom of the fabric and keep the needle to the left of the thread.
2. Hold the needle with your thumb and wrap the thread around the needle from left to right.
3. Hold the thread and the needle with your thumb.
4. Pull the working thread through the wrap holding the needle and the thread.
5. You can see a knot like this after pulling the thread.
6. Now anchor the thread on the blue dot point which is outside the knot.
7. This picture shows of wrapping the thread two times. Depending upon design you have to decide the number of wraps accordingly.
