

Professional Development for Art Teachers

Julie Purney and Katie Moede are art educators in the Pewaukee School District teaching 4K through 3rd grade. Over the last five years they've developed a curriculum aligned with the philosophy of the Teaching for Artistic Behavior (TAB) movement.

During an 8 hour professional development you will

- learn the philosophy behind the TAB movement
- take a tour of their elementary studio space with time for station exploration
- review a 3D lesson plan with an example of their year of curriculum
- receive examples of 5K-3rd grade assessments
- have time to brainstorm and collaborate about your individualized needs
